## OUR BOOKLET FOR 1902.

્યાયાયાયાયાયાયાયાયાયા

ARDLY a day passes that we do not have inquiries for a catalogue showing some designs of our work. We do not issue a catalogue nor do we encourage the reproduction of buildings that have been built.

Originality and artistic design is the secret of our success, together with accuracy and completeness in the services we render. Why not, therefore, take advantage of experience.

Our work is not only confined to the designing, but also to specification work for Sanitary Plumbing, Heating, Ventilating, and everything entering into the construction of modern buildings.

Keep this little book; it will be a help to you when you least expect it. When you are ready to build, write us and we will call on you.

Respectfully yours,

HOOK & SAWYER.
